

# Parliamentary Intelligence - Security Forum

**VISION:** Parliamentary Intelligence-Security Forum (PI-SF) will help make the world a safer place for everyone through international intelligence and security collaboration between global allies.

**MISSION:** Parliamentary Intelligence-Security Forum (PI-SF) will be the leading international security forum providing expertise and collaboration among Parliamentarians and government officials to increase the United States' allies understanding of global radical Islamic threats while creating actionable solutions that counter terrorist jihad.

**ABOUT:** Parliamentary Intelligence-Security Forum (PI-SF) consistently hosts fora for international Parliamentarians and government officials to learn from preeminent experts regarding counter-terrorism financing, cyber security, predatory foreign investments, intelligence sharing, 5G, AI, etc. Forum discussions offer working knowledge for legislative initiatives as well as technology tools that enhance stronger collaboration with United States' allies to successfully eradicate terrorist capabilities and capacities. To date, PI-SF has hosted 14 fora with over 1200 Parliamentarians and government officials in attendance representing 84 countries.

**VALUE PROPOSITION:** Industry experts play a unique role as they offer their perspective and expertise as speakers at each fora throughout the world. Importantly, Parliamentarians, who write the legislation and fund the government are a critical player in this mission. Industry experts have opportunity to convey their distinctive challenges at the fora and begin building relationships with them as we work together to deter and foil terrorists' objectives while advancing American business interests.

**SUMMARY:** There continues to be serious terrorist threats in the United States with dozens of threats foiled each year not only within the United States, but also throughout the world. As we focus on educating Parliamentarians on counter terrorism strategies, we will enhance the collective capabilities to prevent and foil terrorists plots.

Parliamentary Intelligence-Security Forum (PI-SF) is uniquely distinctive as it provides an opportunity for Parliamentarians and government officials to meet with industry partners, government officials and other leading experts on counter terrorism and participate in discussions that focus on solutions to strengthen their collaboration.
