

THE UKRAINE-ROMANIA **BORDER EXPERIENCE**

Amazing organized effort
to **process and support**
refugees in **Ukraine**

Over 600,000 have been processed and have left temporary house to go to other cities or countries with the help of dozens of ngo's and non profits. There are over 6 million people in Ukraine who have left the cities and gone west. If the war expands west they will cross the border. About 4,000 cross each day now.

The Ukraine-Romania border experience was outstanding. Excellent coordination and organization with the Romanian government and dozens of very committed ngo's/non profits. 500,000 people have been processed and gone to other cities or countries through the help of volunteers. Amazing... Terribly sad with the war and dislocation but a beautiful outpouring of support. They are processing 4,000 refugees a day. Mostly women and children as the men remain to fight.

The only thing needed is playground equipment which we want to provide.
